

WORLD CONFERENCE ON DATA SCIENCE & STATISTICS

Understanding Data Science: Can Help Now and in the Future

June 26-28, 2023

DATA SCIENCE WEEK_2023

FRANKFURT, GERMANY

HILTON GARDEN INN, CITY
CENTER, FRANKFURT

The "Understanding Data Science: Can Help Now and in the Future" theme was the focus of the 2023 World Conference on Data Science & Statistics, which took place in Frankfurt, Germany, from June 26–28. Its goal was to disseminate information, innovations, and research on the state of data science, AI, ML, big data, and data analytics, among other fields. With 123 attendees, the meeting was successful overall. The People Events also had the honor of congratulating the organizing committee for Data Science Week 2023, as well as the keynote speakers, plenary speakers, chairs, young researchers, and other participants whose participation helped make the conference a huge success.

The World Conference on Data Science & Statistics (Data Science Week 2023) was held by The People Events and featured notable speakers in addition to attendees. Its goal was to bring together all academics, researchers, and reputable businesses who were experts in their respective fields.

Key Speakers

Several scientific sessions and plenary talks served as the main venues for the event's proceedings. The entire team would like to give a sincere thank you to each and every one of the meeting's keynote speakers. The committee for Data Science Week 2023 would like to express its sincere gratitude to all of the keynote speakers:

Some of the Keynotes are- **Day-1.** Willi Sauerbrei, University of Freiburg, Germany; Yunus Bulut, Validator, Germany; Giancarlo Cobino, Qvantia, Italy; Eric Peukert, ScaDS.AI, Germany. **Day-2.** Pilz Jürgen, University of Klagenfurt, Austria; Antonio Crespo, Unica Community-Research-Learning Institute, Canada; Adam Milward, MetadataWorks, United Kingdom; Mihajlo Jakovljevic, Hosei University, Japan. **Day-3.** Mike Williamson, Cellpoint Digital, Denmark, Satoshi Kurihara, Keio University, Japan; Prasan Kumar Sahoo, Chang Gung University, Taiwan; Vladan Devedzic, University of Belgrade, Serbia.

The organizing committee for Data Science Week 2023 wants to express its gratitude to the conference moderator, Ulrich Bergler of the University of Otago in New Zealand, and the session coordinator, Kurt Pflughoeft of the University of Wisconsin in the United States, for their significant contributions to the overall success of the event. Your involvement has been an enormous help to us.

We also want to express our gratitude to all of the speakers, poster presenters, and delegates who gave their precious time for presenting their research with our network of peers. We are delighted to have had productive relationships with all of these attendees and organizations, and we anticipate receiving even greater support at our next events. Also, we would like to thank the Chairs of the conference, Willi Sauerbrei, University of Freiburg, Germany; Eric Peukert, ScaDS.AI, Germany; Antonio Crespo, Unica Community-Research-Learning Institute, Canada, Satoshi Kurihara, Keio University, Japan; Pilz Jürgen, University of Klagenfurt, Austria for their overwhelming support for our event to be a complete success.

We are pleased to announce the upcoming conference in the Series **2nd World Conference on Data Science & Statistics** from June 17–19, 2024 in Amsterdam, Netherlands. This announcement comes in response to the enthusiastic response and feedback we got from participants and supporters of Data Science Week 2023.
